PERSONAL PAPERS

Accession No.: 04-04
Received: Various dates, Adams accretion May 2007, Laycock accretion September 2007
Volume: 14 linear feet
Processed by: A. Bennett, K. King
Date completed: May 2004, 2009

Restrictions
The following classes of documents are withheld from research use:
1. Papers and other historical materials which contain information or statements that might be used to injure, harass, or damage any living person.
2. Papers relating to investigations of individuals or appointments or personnel matters.
3. Papers relating to student academic performance and discipline restricted under FERPA.

Scope and Content
The material consists of faculty publications, class notes, and personal correspondence. General faculty publications file includes reprints of articles published by faculty members. Reprints from 1952-1956 are bound as well as papers presented 1952-1953 and 1954-1956. Bound volumes are stored in the historical book collection. Individual faculty papers exist for Roderick Byron Currie, Byron E. Laycock, and James A. Orcutt.

Dr. Roderick Byron Currie materials consist largely of faculty committee notes that arrived with no discernible order. Other related materials from Dr. Currie are included in University Relations, Employee Relations boxes 3 and 4. Dr. Currie served as a member of the faculty negotiating Committee and the Grievance Committee. Those materials form the bulk of the material illustrating the faculty position in the labor negotiations in 1978.

Dr. Byron Elza Laycock was born August 18, 1909 in Waynesfield, Ohio. He graduated from the Kansas City College of Osteopathy and Surgery in 1937 with a D.O. degree and taught there for three years. Dr. Laycock came to Des Moines in 1940 and taught osteopathic principles and techniques from 1940-1975. In 1975 Dr. Laycock was named a professor emeritus and received an honorary Doctor of Science degree. Dr. Laycock authored Manual of Joint Manipulation and many journal articles. In 1976 he was teaching at the West Virginia School of Osteopathic Medicine when he died on October 21, 1976.

The Byron Laycock materials consist of class outlines, review questions, transcribed lectures of classes as well as the 61 cassette tapes, and some memorabilia. Multiple copies of the notes, review questions, and transcripts were weeded. A copy of his book signed by well-wishers is in the historical book collection book (6W Lay 1953). Other memorabilia includes honorary degree, various licenses and certificates, classroom posters, photograph album (acc. no. 04-04:A,
3), and mortarboard. Oversized items are stored in the flat file; see flat file inventory for locations.

An additional donation to the Byron Laycock materials was made by Mrs. Johanna D. Laycock in September 2007. It contained an additional copy of the class notes and transcripts as well as the slides used to accompany the lectures. She also donated the draft copy of the Manual of Joint Manipulation and the negatives for the photographs used in the book.

*Dr. James Addison Orcutt* was born July 11, 1918 in Mobile, Alabama. He received his Ph.D. in pharmacology from the University of Rochester (New York). Dr. Orcutt worked as a research chemist in the 1940s and 1950s. Particularly significant was his work on air pollution. From 1963-1966 he taught at the California College of Medicine after which he came to Des Moines. Dr. Orcutt’s papers end in the summer of 1978 when he left on a disability leave.

The James Orcutt papers consist of research notes, publications, and large volume of minutes of committee meetings and memoranda. Dr. Orcutt’s two main contributions involve contributions to the change in curriculum format to the systems approach and debate about the statistical accuracy of student grading. While Dr. Orcutt may not have been a major player, he kept everything so we have a look at life in COMS before the portal. All of the faculty minutes were removed to complete the faculty meeting minutes file, which can be located under record group University Relations, series Employee Relations (acc. no. 04-03:B, 2). Books are stored in the historical book collection.

Alumni papers include memoirs, correspondence, and memorabilia. The earliest records are the “Round Robins” of the class of 1905. These are letters circulated among the class members from January 1941 to November 1951.

*Bertrand Adams*, 1943, was a mural artist associated with Grant Wood. He attended the college in order to study anatomy and became an osteopathic physician. Materials include biographical materials including a 1984 oral history interview transcript and an article from July 1939 “Iowa Journal of History and Politics” about the mural art in Iowa. Adams is mentioned on pp. 281 and 300. A May 2007 accretion includes copies of illustrations from college notebooks in anatomy, embryology, and pathology. Originals are located at the Ames Historical Society. A November 2008 accretion includes additional office materials, Christmas cards, and photocopies of original artwork. Also includes many additions to the rare book collection.

*Herbert Gearhart*, 1964, was the editor of the 1964 “Pacemaker”. His materials include catalogs, 1963 alumni directory, photographs of the class of 1964 and the three campuses, anatomy tests, and miscellaneous newsletters. Most significant are the negatives for the yearbook (acc. no. 05-02:D, 3).

*Howard A. Graney*, 1933, is significant not only as an alumnus, but also as a former faculty member and Board of Trustee member. He also was a staff surgeon and member of the Board at Des Moines General Hospital. His materials include class notes for anatomy, copies of his career scrapbook with several obituary clippings, and the text and a video of his delivery of the Byron Laycock Memorial address in 1992. His speech included information about the history of
the college. An acquisition from the Graney family in 2008 includes class exams, certificates, AOCS materials, newsclippings documenting Des Moines General and the 1965 fire, and correspondence related to Dr. Graney’s retirement from DMGH.

**Wilbert R. Gregg**, 1923, carried on a correspondence with S.L. Taylor and C.W. Johnson from 1914 to 1941. He came to Des Moines as a part time faculty member in 1920 and graduated in 1923. Gregg was a big supporter of the college and frequently requested catalogs for prospective students.

**Carrie Innes (Mortensen)**, 1913?, while she is not listed on alumni records she is listed on the student records. Her materials consist of copies of class notes from C. W. Johnson’s class on nervous diseases. There are also photographs of Bess E. Strong and other members of the class of 1913.

**Charles Johnson**, 1963, was active in student council and is featured in a number of c.1963 photographs (cover of the Spring, 1962 Log Book, photographed with the Dean in the 1963 yearbook). Materials include a photograph (two copies), newspaper article, Log Book clippings and 1963 commencement programs. 1 folder

**Sherman W. Meyer**, 1930, materials consist of his memoir, Life Story.

**Arthur J. and Maude Huston Olmsted**, 1903, materials include pamphlets for their office and receipts for their tables.

**Mary and Mina Raffenberg**, 1906-1907, attended Still College. Materials include certificates, photos, and personal affects for Mary, Mina and their brother Edward, who attended Still College but graduated from A.T. Still in Kirksville. Oversized items are inventoried and stored in the flat file.

**Robert M. Tessien**, 1935, papers include a copy of speech. His book, My Practice of Osteopathic Medicine, is in the circulating collection (WZ 100 T339t 1999).

**Russell M. (Rusty) Wright**, 1929, is considered a father of sports medicine. A bronze bust of him and plaques are in the library from his recognition as Alumnus of the Year in 1991. Materials consist of obituary and dedication program. His autobiography, One Man’s Journey from Slippery Rock (1E Wri 1997), and book, The Makings of an Olympic Champion, are in the historical book collection.

**Bruce Murphy, D.O., Ph.D.**, papers include various items pertaining to the career of the former faculty member, including proposals, presentations and articles.

**Lawrence Waite, D.O.**, 1975, practices near La Crosse, Wisconsin. The collection includes a
series of books he either used or collected over the years, as well as lecture notes, articles, notes from presentations, political cartoons and a short booklet titled *an introduction to osteopathic medicine*, printed by the AOA. Dates of archival material range from the 1970s until the 1990s. The archival volume is less than one document box.

**Description of Series**

I.  **FACULTY (1898-1999?), 11 lin. ft.**

General faculty publications file contains reprints of articles published by faculty members. Reprints from 1952-1956 are bound, papers presented 1952-1953 and 1954-1956 bound also. Individual faculty papers of Roderick Byron Currie, Byron Laycock, and James A. Orcutt are classed separately.

Osteopathic Manipulation Medicine Department Papers (acc. no. 06-04:A, 1) are described in the finding aid “OMM Department Papers”.

Series arranged alphabetically

II.  **ALUMNI, 1 lin. ft.**

Series arranged alphabetically

There is some overlap between the Faculty and Alumni files, as some individual fit both categories.

**Container List**

Call numbers are given for bound items shelved in the historical book collection.

1 Ma Pap 1952  Papers Presented by Members of the Faculty: 1952-1953
1 Ma Pap 1954  Papers Presented by members of the Faculty: 1954, 1956
1 Ma Rep 1952  Reprints of Articles Published by Faculty Members: 1952-1956
